It is not at all probable, that the march of the army from Arlington Heights, to Centerville was hindered or quickened a day or an hour, by the comments, pro or con, of all the newspapers in the Union. The advance was not ordered until the Licut. General was ready and gave the word. The army moved in the force and in the exact order, in which he directed. The reverse it suffered was caused by encountering superior numbers; by the arrival of Gen. Johnston with 20,000 iresh troops at the crisis of the fight, by the failure of Gen. McClellan, and urging the General-in-Chief to march on Richmond when he had an army of 40 000 men within a stone's throw, and before the rebels had collected any adequate force either of men or batteries to meet him. Opposed to this policy ware the Chicago Times and Post, the big and hittle Journals of Chicago and Springfield, the Milwaukee Sentinel, and almost every exchange which comes upon our table from Illinois and Wisconsin. We are disposed to the modest, and therefore we will not claim that our power and influence sutweigh all the others combined. Col. Sigel's regiment was being re-organized for three years, and so enthusiastic wore the men with their leader, and so clated with their own prowess in the suffair near Carthage, that nearly all of them are re-enlisting for the war. They will make better soldiers now than over. By the way, how the rebels have lied about it e Carthage affair. One Hughes, a licutement with Gov. Jackson, writes to a country paper that Sigel's less was one hundred and fifty whereas, several official statements from Col. Sigel and others have been published sia ing the entire loss of U. S. troops in that affair was twenty-one Killed and some forty wounded. The Southern papers are now circulating the ricitudess story that over three hundred Federals were slanguistered at Carthage. This is the sort of pap the rebellion is fed upon.

Kerybody has supposed for several days past that the de damage to the North Missouri Railroad was so gerious that the repairs would occupy several weeks time. Soutsering re-

they became convinced that it was for their interest to allow the Government the largest facilities for repressing the operations of bridge bursers. It is not the conversion of the present of the conversion of

Hayti and St. Domingo.

[From the Boston Journal.]

We learn by letters received in this city that the Government of Hayti will not interpose in the master of the occupation of St. Domingo by the Syankrule. There was, however, a feeling of insecurity from the distinction of rumors of the designs of the French Emperor upon the Ishaid, which, probably, have no good foundation. The monetary crais in the United States had seriously affected the trading interest, as credit with merchants of the United States was, in a great degree, cut off. Some of the leading men propose to commence the cultivation of cotton apon a liberal real; and it first suggested the employment real; and it first suggested the employment of white labor, but this the prejudices of the people forbade. The writer of the letter was of opinion that an attempt would be made to obtain a supply of Coolie laborars. The piper money of the Island was in a better condition, but there was a class of discontented persons likely to give the government considerable trouble. The impression in regard to matters in St. Domingo was, that though there might be local risings of the people, the Spanlards would be able to maintain their occupation of the Island. Johnson, of Captain Noleman's Centralia Cavalry,

Thirty-two recruits came in on Sunday for Captain Burtill's Cavalry, stationed at Bird's
Point. They are from White county and a spiendid appearing set of failows.

Thear it whied that a body of troops from Union City, catered Paducah the other day, and to k possersion of the State Areenal, at that place. The aestrollaws of Paducah were no doubt city indignant and will, of course, come out with a milk and water protest against the occupation.

Hen. A. Huntington, the eminent Massachusetts lawyer, or Mayor of Salem, &c., in company with J Lintsen Waters, Esq. of your city, paid us a visit on Saturolay, and were greatly pleased with the appearance of things in and about Camp Defiance.

A letter from W. H. Van Epps, Esq., President of the Illinois State Agricultural Society, informs us that at the forfacoming State Fair, to be held in this city, a Champion Drill will

recan now attractive this reature was made at that time, and there is every reason why it should be even more successful new. We have very numerous Home Companies in this city, and throughout the State, that are drilling constantly, and with a seal and dilligence

city, and tarongaous the state, that are draining constantly, and with a real and diligence that must give notable results. Let us have a handsome representation of them at the Fair, and such we doubtless shall have.

For this feature of the Fair, the ample and susgnificent area of the Fair, the ample and susgnificent area of the Fair Grounds of Brighton will be a most happy accessory. The most complete arrangements will be made by the committees in charge, to insure success and fairness in every feature of the competition. For our troops will, many of them, ere September, have gone forth to the earnest work of a patriot war, but many will remain behind, in the ordinary avocations of citizen life, devoting, however, much skill and time to securing perfection in drill and appolatment, to their numerous independent companies. It is from these last that we shall have a large and noble demonstration at the panies. It is from these last that we shall have a large and noble demonstration at the Fair. The military features of this Fair are being recognized all throughout the country. From all sections of the North, inventors and taventions of war implements and munitions, and manufacturers of military goeds are being heard from by letters, indicating their intention to be present.
